

Time to prepare a proper contract of sale of land

How long do you take to prepare a contract of sale of land?

We understand that your agent must have a contract of sale of land in his or her office before he or she can begin marketing. That is the law. If the agent is in breach, he or she will pay a big fine by the Department of Fair Trading.

For the above reason, some agents agitate and wail to have a contract done like the speed of a speeding bullet.

Answer:

Once you have answered the list of questions that we require and you have made the payment, we take about 3 business days to have your contract delivered to you.

Method of deliver:

We deliver to you or your agent by email
